SATURDAY

Thirty-five Dozen Boys' and Misses' Hose That Would Sell Regularly at 25c Per Pair For Saturday at 17c or Three Pairs For 50c.

You wonder how we can sell 25c Hose for 17c and not lose money. Well, it is seldom we can do it. This time we found a manufacturer who wanted to close out this line. He couldn't make it at a profit. In other words, he made them too good to sell for 25c.

One kind has the new corrugated heel—the kind that does not pull up. Ribbed, seamless and has a tripple knee.

The other is the heavy ribbed, high spliced heel and good elastic knit legs. Absolutely fast black. Thirty-five dozen of such a lot as these won't last long, so come early. Sizes, 6 to 10.

H. G. Thomas of Stowe, state fish and game commissioner, who was in Montpelier yesterday, said the shipments from the hatchery were nearly over for this year there being only about six more to be made. These shipments will consist of eight cans each, but as the fingerlings have reached such a size only about 1,500 will be shipped in a can instead of 1,800, as is the case when smaller fry are shipped. Because of the inaccessibility of the road from the hatchery to the railroad station, no shipments could be made last week, but Mr. Thomas has been notified by Mr. Keyes of the hatchery that the roads are now in good condition and he will go to Roxbury to assist in closing the shipments this week.

"GENTLEMEN:—The writer put a Ruberoid roof on his father's house some eight years ago. Subsequently he was advised by you to paint it, but did not do so. The roof is still in good condition and we understand that you now make a Ruberoid roof in a red color. If so will you please advise if the red is as good as the grey or black and whether I would dare use it on an open balcony on which we sometimes sit and walk? Also quote me price on four or five squares of the thickest quality. Yours truly,
